DETAILED ACTION

Election of Species

- [01] Claims 1 & 2 are generic to the following disclosed patentably distinct species:
 - [01a] Wherein the temperature detection means is integrated with a semiconductor device, as in claim 3, corresponding to the first embodiment in the claims, shown in Figure 1.
 - [01b] Wherein the temperature detection means comprises a member which is independent of the internal electric circuits and is arranged in a power supply line, as in claims 4-6, corresponding to the second embodiment in the claims, shown in Figure 3.
- [02] The species are independent or distinct because they are separately usable. A temperature detection means which is imbedded in an electronic semiconductor device has a different utility and a divergent search from a temperature detection means which lies in a power supply path.
- [03] Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even if this requirement is traversed. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Application/Control Number: 10/807,080

Art Unit: 3739

Page 3

[04] Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Conclusion

- [05] Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip R. Smith whose telephone number is (571) 272 6087 and whose email address is philip.smith@uspto.gov. The examiner can normally be reached between 9:00am and 5:00pm.
- [06] If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda Dvorak can be reached on (571) 272 4764.
- [07] Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
